Application	Made of all non-shedding material that is perfect for use in cleaning any very small area Cleanroom functions demand. Are not Autoclavable.							
ESD Safe*	Not for use in ESD environment.				Electro Static Discharge Safe Brushes.			

* All metal and wood handle brushes can be used in ESD sensitive environments as long as the brush remains saturated in liquid. It is recommended that the brush be tested on the required application to confirm ESD function.

The *Special Cleaning Brushes* are designed for Cleanroom uses the other brushes are not able to accommodate. Use them as Applicator brushes or Cleaning brushes for any small, tight to reach areas. These Epoxy Set brushes cannot be put in an autoclave.

SST Series includes four handy sizes to fit your cleanroom needs.

The *2 and 6 Series* for fine detail cleaning or use as fluid applicators for small parts or tight spots, and the *10 and 12 Series* for general use. All have strong mechanical bristle clamping for maximum bristle retention and no adhesives that can leach out and contaminate surface areas. These brushes are autoclavable.
